Local 4326

The Forney Professional Firefighters Association was established in 2004. Our association is comprised of 11 career firefighters for the City of Forney Fire Department. We have participated in several charitable events over the past years. A few of our past charities have been Forney Lions Club Angle Tree, St. Baldrick's Foundation, and other donations have been made to families within our community. We have been brainstorming about a charitable event that we could help another family in our community. After hearing about Danny Ray Hardman we knew that this was the time to step up to the plate. Our Association has agreed to hold an annual fundraising event to help strengthen our community. We encourage everyone to help support our "HOMETEAM".

Buy A Drive

Danny Ray Hardman aka "Handy Dan"

On April 26, Danny Ray Hardman, 43, a.k.a Handy Dan, was diagnosed with esophageal cancer, stage 4. Dan is a loyal, hard working member of the Forney community where he was born and raised. He is the sole provider for his family of five, Amy, a full time student and wife of 15 years, Laney age 10, Clancey age 9, and Cash age 3. Dan is self employed and has only carried health insurance for the children. Dan is in the process of trying to get the nourishment he needs to gain his strength, so that he can fight this uphill battle. As he continues to stay strong and have faith in the plan that God has for him, please help support him and his family while they unite to "MOW" down cancer.
